**Annual 47 C.F.R. § 64.2009(e) CPNI Certification**

**EB Docket 06-36**

Annual 64.2009(e) CPNI Certification for 2011 covering the prior calendar year 2010

1. Date: February 10, 2011
2. Name of company covered by this certification: Lipan Telephone Company, Inc.  
(Long Distance Operation)
3. Form 499 Filer ID: 805026
4. Name of signatory: Beth Howard
5. Title of signatory: Secretary/Treasurer
6. Certification:

I, Beth Howard, certify that I am an officer of the company named above, and acting as an agent of the company, that I have personal knowledge that the company has established operating procedures that are adequate to ensure compliance with the Commission's CPNI rules. *See 47 C.F.R. § 64.2001 et seq.*

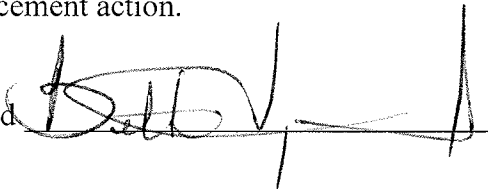

Attached to this certification is an accompanying statement explaining how the company's procedures ensure that the company is in compliance with the requirements set forth in section 64.2001 *et seq.* of the Commission's rules.

The company has not taken any actions (proceedings instituted or petitions filed by a company at either state commissions, the court system, or at the Commission against data brokers) against data brokers in the past year. The Company is not aware of any attempts by pretexters to access the CPNI of the Company's customers; therefore, no action against data brokers has been required.

The company has not received customer complaints in the past year concerning the unauthorized release of CPNI.

The company represents and warrants that the above certification is consistent with 47 C.F.R. §1.17 which requires truthful and accurate statements to the Commission. The company also acknowledges that false statements and misrepresentations to the Commission are punishable under Title 18 of the U.S. Code and may subject it to enforcement action.

Signed

A handwritten signature in black ink, appearing to read "Beth Howard", written over a horizontal line.

Attachment: Accompanying Statement explaining CPNI procedures

## **ACCOMPANYING STATEMENT**

This statement explains how Lipan Telephone Company, Inc. long distance operation's ("the Company's") procedures ensure compliance with the FCC rules on CPNI and FCC requirements for the safeguarding of such customer information.

The Company has chosen to prohibit the use or disclosure of CPNI for marketing purposes. If CPNI is to be used for its sales and marketing campaigns in the future, the customer notice and opt-out approval process will be conducted and appropriate safeguards will be implemented in accordance with the CPNI rules, as required.

The Company has a written CPNI Policy that explains what CPNI is, when it may be used without customer approval, and when customer approval is required prior to CPNI being used, disclosed or accessed for marketing purposes.

The Company has assigned a Director for CPNI Compliance to serve as the central point of contact regarding the Company's CPNI responsibilities and questions related to CPNI Policy. The Director for CPNI Compliance has responsibilities including, but not limited to, supervising the training of all Company employees with access to CPNI, investigating complaints of unauthorized release of CPNI, and reporting any breaches to the appropriate law enforcement agencies. The Director for CPNI Compliance also maintains records in accordance with FCC CPNI rules, including records of any discovered breaches, notifications of breaches to law enforcement, and law enforcements' responses to the notifications for a period of at least two years.

The Company has internal procedures in place to educate its employees about CPNI and the disclosure of CPNI. Employees with access to this information have been trained as to when they are and are not authorized to use CPNI and are prohibited from disclosing or permitting access to CPNI without the appropriate customer consent. The disciplinary process related to noncompliance with CPNI obligations is described in the Company's CPNI Policy manual and in accordance with Company policy, any employee that uses, discloses, or permits access to CPNI in violation of CPNI regulations is subject to disciplinary action, and possible termination.

The Company requires express opt-in consent from a customer prior to the release of CPNI to a joint venture partner or independent contractor for marketing purposes. However, the Company has not and does not plan to release CPNI to any third parties for marketing purposes.

Lipan Telephone Company, Inc. (Long Distance Operation)  
CPNI Certification for 2010

Appropriate safeguards on the disclosure of CPNI have been implemented in accordance with C.F.R. §64.2010. Prior to the disclosure of CPNI, customers initiating calls to or visiting the Company's offices are properly authenticated. Passwords and password back-up authentication procedures for lost or forgotten passwords are implemented in accordance with §64.2010(e) upon customer request. To establish a password for an existing customer, the Company must first authenticate the customer without the use of readily available biographical information, or account information, such as calling the customer back at their telephone number of record. For a new customer, the password is established at the time of service initiation.

Call detail information is only disclosed over the telephone, based on customer-initiated telephone contact, if the customer first provides a password that is not prompted by the Company asking for readily available biographical information, or account information. If the customer does not provide a password, call detail information is only provided by sending it to the customer's address of record or by calling the customer at their telephone number of record. If the customer is able to provide call detail information to the Company during a customer-initiated call without the Company's assistance, then the Company is permitted to discuss the call detail information provided by the customer. Prior to the Company disclosing CPNI to a customer visiting any of its retail offices in person, the customer must present a valid photo ID matching the customer's account information.

The Company does not rely on readily available biographical information or account information to authenticate a customer's identity before a customer can access CPNI related to their telecommunications account online. Once authenticated, a customer can only obtain online access to CPNI related to his or her telecommunications account with a password that is not prompted by the Company asking for readily available biographical information, or account information.

The Company has implemented procedures to notify customers immediately whenever a password, customer response to a back-up means of authentication for lost or forgotten passwords, or address of record is created or changed.

The Company complies with the Commission's rules regarding the notification of law enforcement and customers, in the event of a CPNI breach. The Company maintains a record for at least two years of any breaches discovered, notifications made to law enforcement (i.e., United States Secret Service and the Federal Bureau of Investigation) and customers, and responses from law enforcement.
